DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 5-14 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter (these reasons are substantially identical to those set forth in the previous Office action and are reiterated herein):

Claim 1 recites, among other features, that the intake valve introduces part of the air supplied to the cathode chamber to the anode effluent recirculation passage. Neither JP 5-129029 nor JP 11-116202 teaches or fairly suggests this subject matter.

Claim 9 recites that the intake valve introduces a combusted gas to the hydrogen supply passage. JP 5-129029 and JP 11-116202 also do not teach or fairly suggest this subject matter.

Claim 12 recites that the intake valve introduces part of a cathode effluent to the anode effluent recirculation passage. JP 5-129029 and JP 11-116202 also do not teach or fairly suggest this subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
